Personal Profile

Hardworking and ambitious individual. I am accustomed to working in a challenging and fast paced environment, particularly when dealing with multiple projects and priorities at the same time

Work Experience

Assistant Lecturer

Helping lecturers with tutors, projects and grade assignments on these subjects below :

- Data Structure Feb 2020 - May 2020
- Basic Programming Sept 2020 - Jan 2021

Angkut Tuban Project 2020

Sept 2020 - Dec 2020

The goal of this project is to build a website and a mobile application for Tuban district to help Tuban's people or tourists in Tuban order public transportation via online. In this project, I planned for an iterative software development. Such as planning activities, schedule, time constraint, and creating software requirement specifications. I also make a manual book for the product. It teaches the user on how to use the product.

PT. Bank Rakyat Indonesia (Persero) Tbk.

23 Aug 2021 - 22 Feb 2022

Internship, Digital Banking Development and Operation Division

- I am an intern at BRI as a UI/UX Designer. I work on various projects by making UI designs or doing UX research. Some of the projects that I work on include BRILink Support System (BSS), BRILink Agent Management (BAM), BRILink, BRI Mobile (BRImo), and Ceria. My work includes redesigning existing apps, designing user interfaces, user testing, heuristic evaluation, UI/UX app analysis and designing wireframes that fix existing UX issues.

Competition and Achievement

Finalist - Cigna Innovation Challenge

Sept 2020 - Dec 2020

PT. Asuransi Cigna Indonesia held a national scientific writing competition with 2 topics that we should convey with innovative ideas. My team and I have presented our idea called "Program Cigna Unbending Life: Insurance that focused on mental health in Indonesia"

Finalist - 4C Virtuality National Competition

Dec 2020

My team and I compete in the UX Challenge Competition. We delivered a pitch to the judges about our mobile application prototype called TKlassrom.

Funded PKM PM Competition 2021 for Community Services Category

Mar 2021

In this competition, I was registered as the group leader. The group consists of 5 people. We designed and developed 2 mobile apps and 1 website to solve our client's problem. The problem we tried to solve was the lack of support or learning applications for kindergarten students in COVID-19 pandemic.

Organizational Experience
